

Exporting Midterm Grades from Desire2Learn to Banner

****Important Information:**

- NF, QF, or FF grades will need to be entered as an override. A plain F grade will not be accepted.
- For QF grades, you are given the option to associate the Last Date of Attendance during the export process.
- Grade export is case sensitive so grading schemes must be set up using upper case letters.
- Credit only courses - Credit grades will need to be submitted as CO instead of CR. A CR grade will not be accepted when the student has the C (credit only) grading mode in banner. Also letter grades will not be accepted with a C grading mode.
- Incompletes should not be set up in the grading schemes. If you want to submit an incomplete instead of the calculated grade, it needs to be entered as an override.
